## Children's Safety & Security

**The Problem:** 50,000 children are reported missing every year. Additionally, 1 in 4 children fall victim to inappropriate touching. 85 percent of predators are known to the victim. Thinking that "it won't happen to my kids" or "I'm pretty aware of what goes on" is exactly what pedophiles hope you think. Your children might be sleeping in their beds while you're in the basement, and someone walks right in and takes them. The fact is, you can't be everywhere at once.

**The Solution:** You need a common-sense approach to protecting your children from abduction and sexual abuse. Develop your children's ability to take care of themselves as a natural part of what they do every day. Teach them to be responsible for their own well-being at all times. We provide you with the fundamentals of safety and the strategies for security to help you make smarter time; money; and life-saving decisions.

### You Learn How To:

- Raise children to be responsible for their security.
- Teach them in ways they like to learn.
- Determine an age to start learning security.
- Encourage them to speak up and express themselves.
- Help them develop and trust their instincts.
- Play games that tap into their observations.
- Teach them to differentiate good and bad touches.
- Help them identify a predator and learn their lures.
- Create a secure environment for a child to grow in.
