Corporate Safe Travel Security

The Problem: Risk management and international security are of considerable concern. Hijackers and terrorists are causing travelers to lose sleep post-9/11. The destination to which you are traveling might be unstable. Political unrest, and emotionally charged assaults against business travelers, have corporations, associations, and travel managers on edge. In addition, professional pickpockets, bag-snatchers, airport thieves, hotel predators, and rental-car-scam-artists prey upon the weary traveler.

The Solution: Incorporate intelligence and information, pre-planning and prevention and response training into your travel agenda. We provide you with the fundamentals of safety and the strategies for security to help you make smarter time; money; and life-saving decisions.

You Learn How To:

- Access-up-to-the-minute travel security resources.
- Plan proactive safe and secure trips.
- Implement emergency planning strategies.
- Become safe on the streets.
- Defend yourself in an attack.
- Identify scams, cons, and distraction thieves.
- Make yourself safer in airports, hotels, and rental cars.
- Relax and enjoy your travel experience.
